

ANA RITA CARREIRA

Biomedical Engineer (MSc) with experience in computer vision, image processing, and deep learning for detection, segmentation, and defect analysis for industrial applications. Strong in algorithm optimization and integration of solutions into production environments.

Experienced in R&D and industry, with solid problem-solving and collaboration skills.

Open to remote or hybrid roles with occasional on-site presence.

EXPERIENCE

SOFTWARE ENGINEER

MCM Systems/ISQCTAG, Porto

October 2025 - present

- Develop and optimize industrial computer vision systems.
- Implement detection, segmentation, and classification algorithms.
- Build Python-based user interfaces and deploy solutions in production environments.
- Collaborate with stakeholders and validate systems in real-world conditions.

PROJECT AND ARTIFICIAL VISION ENGINEER

ISQCTAG, Monção

February 2023 - September 2025

- Developed computer vision solutions for industrial inspection.
- Designed, trained and optimized deep learning models for detection, classification, and defect analysis.
- Integrated vision systems into production lines and improved performance with GPU acceleration.
- Coordinated projects, managed stakeholder communication, and translated requirements into technical solutions.

HABILITATIONS

Master Degree in Biomedical Engineering

2020 - 2022

Instituto Superior de Engenharia do Porto

Bachelor's Degree in Biomedical Engineering

2017 - 2020

Instituto Superior de Engenharia do Porto
